Dismissal from Evening Service (Auditorium) to Lake

- At the conclusion of Evening Service, our hosts will begin dismissing students to head to the lake, beginning with students who are signed up to be baptized.
- Next Gen Coordinators are responsible for connecting with the students in their campus outside the auditorium, walking them down to the lake, and lining them up alphabetically. A list of students who are signed up in each campus will be provided to the respective Next Gen Coordinator.
- Each campus will line up at its designated labeled post.
- After approximately 5 minutes, our hosts will begin dismissing the rest of the students by grade. The remaining students will walk to the lake with their CC Leader, who will have their lanterns for lighting.

- After Carson opens the service, selected students will share their testimonies while the band is playing in the background.
-  Testimonies
- Following student testimonies, we will begin baptisms. Students will be baptized by campus in the order of campus launch (Lewisburg-Greenville). Students, volunteers, and visiting families will be invited to join in on our acoustic worship.
