

SPONTANEOUS BAPTISMS

Description of Spontaneous Baptisms

Before and during our baptism service, students who did not sign up to be baptized earlier in the week will have an opportunity to be baptized.

While closing down the final service, Carson Clark will encourage students who didn't previously sign up for baptisms but are now feeling led to, to immediately go to their group leader.

After asking the questions found on the "How" portion of the "Baptisms" documentation, the group leader will discern if the student should be baptized. If they discern that the student should be baptized, the leader will immediately go to the student's Next Gen Coordinator.

The Next Gen Coordinator will verify that the student has parental consent to be baptized spontaneously.

If the student has parental consent, the Next Gen Coordinator will collaborate with Brigitte Filbrun to ensure the student is baptized.

Goal of Spontaneous Baptisms

Create space for the Holy Spirit to move on a student that hadn't been prepared to be baptized up until that moment.

Allow the students a final opportunity to publicly declare their faith in Jesus.
