Setup / Teardown List

SETUP / TEARDOWN LIST

No spray paint can be used on Extreme Sports Field!!

Slip n Slide Kickball

Setup: Place slip and slide tarps down in a square, then use stakes to secure them in place. Use the stake covers to cover the tops of the stakes. Blow up inflatable Kiddie Pools.

Teardown: Check the field for any trash or lost items before leaving.

Puzzle Pour

Setup: Assign a lane for each team using cones. Place one 5 gallon bucket filled with water at the start of each lane. Place one empty 1-gallon bucket at the end of each lane. Provide each player with a small cup for passing water. Set up the tables for the block puzzle station behind the lanes for pouring water.

Teardown: Empty and store all trash cans and buckets. Collect all cups and puzzle pieces; return to storage. Remove cones. Check the field for any trash or lost items before leaving. Check the field for any trash or lost items before leaving.

Tug Boat

Setup: Mark a starting line (trash can side) and finish line (5-gallon bucket side). Place one trash can filled with water at the starting line for each team. Place one 5-gallon bucket at the finish line for each team.

Provide: 1 sled per team and 1-gallon bucket with holes for transferring water

Teardown: Empty and store all buckets and trash cans. Return sleds, ropes, and gallon buckets to storage. Remove field markings or cones. Check the field for any trash or lost items before leaving. Check the field for any trash or lost items before leaving.

SETUP / TEARDOWN LIST

No spray paint can be used on Extreme Sports Field!!

Beach Ball Bash

Setup: Playing area will be up and ready all days of camp. Before the game starts, wet it with soap and water. Inflate and place beach balls in the center of the arena, or if they're flying away put them in the tote until the game starts. Prepare blindfolds (one per participant per round).

Teardown: Leave game areas set up all days of camp. Check the field for any trash or lost items before leaving.

Tug of War

Setup: Mark the center line on the ground using cones or a visible marker. Lay out the rope centered on the middle line.

Teardown: Roll rope up and put it in designated tote. Check the field for any trash or lost items before leaving.

Ultimate Frisbee

Setup: Set up a large rectangular playing field with cones marking boundaries and end zones on each side. Get frisbee out of the tote and have it ready for the day.

Teardown: Collect the frisbee and all cones from the field and return them to the game supply area. Check the field for any trash or lost items before leaving.

SETUP / TEARDOWN LIST

No spray paint can be used on Extreme Sports Field!!

Capture the Splash

Setup: Fill water balloons ahead of time and place them in buckets near the center line or along each team's side. Make sure cones are out and make the playing field.

Teardown: Pick up all broken balloon pieces from the field to keep the area clean and safe. Dump out any leftover water from buckets and collect them along with any unused balloons. Return cones or markers to tote for storage. Check the field for any trash or lost items before leaving.

Dodgeball

Setup: The teams will form a circle at the dodgeball area. No setup is needed except getting the dodgeball out and ready for when they play.

Teardown: Make sure dodgeball is put away for the next day in its tote. Check the field for any trash or lost items before leaving.
